**Purpose:**

The purpose of this advice letter filing is to implement rates reflecting the new revenue requirements for the Sacramento, Larkfield, Monterey County(including the Garrapata, Toro, Ambler Park, Ralph Lane and Chualar service areas) , Ventura County, Los Angeles County and San Diego County Districts.

**Background:**

Submission of these tariffs is made in compliance with Ordering Paragraph 14 of Decision (D.)15-04-007 dated April 9, 2015 which states

*Within 30 days of the effective date of this decision, California-American Water Company is authorized to file Tier 1 Advice Letters with revised tariff schedules in compliance with this decision for each district and rate area in the proceeding. The adopted rates for test year 2015 are included as Attachment A to this decision and shall be retroactively effective to January 1, 2015 in conformance with the Commission's interim rate process. The filing shall be subject to approval by the Commission's Division of Water Audits.....*

Submission of these tariffs is also made in compliance with the agreement of Special Request 29-1:2 between CAW and ORA regarding the preliminary statements, which states

*CAW's preliminary statements shall be updated to reflect all current individual memorandum and balancing accounts, with an alpha-numerical reference to those accounts. CAW shall also provide a summary table listing each account, the accounts corresponding alphabetical label, and the CPUC Sheet Number referencing the accounts preliminary statement. This summary table along with the updated preliminary statements shall be uploaded to CAW's website...*

Included with this submittal are 1) the recast of conservation surcharges for recovery within the remaining three-year GRC cycle per the settlement adopted under D.15-04-007 and 2) the transfer and recognition of approved memorandum and balancing account balances and ongoing surcharge collections in the Consolidated Expense Balancing Accounts (CEBA).

In accordance with Section 4.3 of General Order No. 96-B, a copy of this advice letter is being sent to those entities listed in Exhibit A.

Copies of the detailed workpapers and the documents supporting this Advice Letter have been furnished to the Commission Staff.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

This filing will not cause the withdrawal of service, nor conflict with other schedules or rules

**Tier Designation:**

Pursuant to D. 15-04-007, this advice letter is submitted with a Tier 1 designation.

**Effective Date:**

Per D. 15-04-007, California American requests an effective date of January 1, 2015.

**Service List:**

In accordance with Section 4.3 of General Order No. 96-B, a copy of this advice letter is being sent to those entities listed in Exhibit A.

**Protests and Responses:**

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter.

A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material errors or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Water Division, 3<sup>rd</sup> floor  
California Public Utilities Commission,  
505 Van Ness Avenue, San Francisco, CA 94102  
water\_division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail (or e-mail) to us, addressed to:

GENERAL METERED SERVICE

SPECIAL CONDITIONS:

General Items:

- 1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA. (N)
- 2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

Fees and Surcharges:

- 1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.
- 2. Per Advice Letter 1072, a surcharge of \$0.0052 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (C)(I)
- 3. Per Advice Letter 1072, a surcharge of \$1.54 for the Low-Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers. (N)  
|  
(N)
- 4. Per Advice Letter 1072, the over-collected balance in the Sacramento District Consolidated Expense Balancing Account (CEBA) will be distributed through a quantity based surcredit of \$0.0081 per 100 gallons over 12 months effective April 9, 2015. The total amount will be distributed to all classes of customers. (C)

- 6. Moratorium: In portions of the Monterey District served, in whole or part, by Carmel River diversions, and subject to the following conditions and restrictions, California-American Water Company shall deny requests for new service connections and prohibit any increased use of water at existing service addresses resulting from a change in zoning or use:
a. California-American Water Company shall not deny such requests or prohibit such increased use where all necessary written approvals for project construction and connection to California-American Water Company's system had been obtained prior to October 20, 2009;
b. California-American Water Company shall not deny the installation of additional meters at an existing service provided that the additional metering does not result in an increase in water use.
c. This special condition does not authorize California-American Water Company to deny service to:
i. the area served by the Carmel Area Wastewater District Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinances 39 and 109 and Rule 23.5, prior to January 1, 2017 ;
ii. the area served by the Sand City Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinance 132 and Rule 23.6;
iii. Security National Guaranty, Inc. under its frontloading agreement;
iv. the Ralph Lane, Chular, Bishop, Ambler Park, Ryan Ranch, Hidden Hills, and Toro subsystems within the Monterey District; and
v. a connection or increased use where an authorized official of the State Water Resources Control Board has given written approval.
d. California-American Water Company shall not deny a request for new service or prohibit the increased use of water at an existing service address if an authorized official of the State Water Resources Control Board has given written approval for such service or increased use.
e. This special condition shall expire at the filing by California-American Water Company of a Tier 1 advice letter with the Commission transmitting the written concurrence of the Deputy Director of Water Rights of the State Water Resources Control Board with California-American Water Company's finding that a permanent supply of water is ready to serve as a replacement for the unlawful diversions of Carmel River water

DEFINITIONS:

1. SUPPLEMENTAL IRRIGATION SYSTEM – “Supplemental irrigation system” shall mean irrigation systems other than natural precipitation.
2. WATER BUDGET FEATURE – “Water budget feature” shall mean percent up/down adjust feature such as a button or dial on an irrigation controller that permits the user to increase or decrease the runtimes or application rate as for each zone by a prescribed amount or percent, by means of one adjustment without modifying the settings for that individual zone.
3. GEAR DRIVE ROTOR SPRINKLERS – “Gear drive rotor sprinklers” shall mean Irrigation sprinklers with high uniformity rates and lower precipitation rates than conventional sprinkler heads or impact rotors resulting in more efficient irrigation.
4. MULTI STREAM, MULTI TRAJECTORY ROTATING SPRINKLERS (MSMTR) – “Multi stream, multi trajectory rotating sprinklers” shall mean slowly turning irrigation sprinklers distributing water in a number of individual streams of varying trajectories with lower precipitation rates and higher uniformity than traditional fixed spray head sprinklers.
5. HIGH EFFICIENCY FIXED SPRAY NOZZLES – “High efficiency fixed spray nozzles” shall mean precision irrigation spray nozzles with larger and more uniform droplet size resulting in better wind resistance, lower precipitation rates and higher irrigation efficiency.
6. DRIP IRRIGATION - “Drip Irrigation” shall mean a low pressure, low volume watering system that applies water slowly to plants, near or at ground level, to minimize runoff and loss to evaporation. The term “Drip Irrigation” shall have the same meaning as “Micro Irrigation” and “Trickle Irrigation.”
7. SUB SURFACE LOW VOLUME EMITTERS – “Sub surface low volume emitters” shall mean drip or low volume, low pressure irrigation systems that deliver a low flow of water at or near the root zone of plants - measured in gallons per hour versus gallons per minute.
8. LOW VOLUME IRRIGATION – “Low volume irrigation” shall mean drip, low volume or Micro Spray Irrigation, includes Low volume fixed spray nozzles.
9. Best Management Practices - “BMP” as referenced in Section V of the Settlement attached to D.13-07-041.
10. Customer Classification Conservation Base Rate – “CCCBR”. the “Customer Class Conservation Base Rate” (“CCCBR”) is defined as the low block or division quantity rate from each billing customer classification under conservation rates, and is determined as the rate necessary to equal the billing classification revenue requirement given the defined rate design parameters.

General Items:

1. The boundaries in which the above rates apply are as set forth in the Preliminary Statement and delineated on the Tariff Service Area Maps filed as a part of these tariff schedules.
2. This non-residential rate design shall remain in effect and until ordered otherwise by the Commission.
3. Abbreviations as used in this tariff are defined above.
4. Non-residential customers billed under this tariff shall be placed into one of four divisions for billing purposes. The determination of under which Division each individual customer shall be billed will be based on the following:
  - a. Division 1: Customers that are indoor/outdoor Rate BMP-compliant and have outdoor landscape irrigation of no more than 10% of total parcel size covered by the meter (or meters) meant to serve such parcel, and excluding from the total parcel size for purposes of the 10% calculation areas of natural, non-irrigated open space. Meters designated as irrigation only meters will not be included in Division 1 regardless of the 10% parcel size allowance noted above.
  - b. Division 2: Customers that are indoor/outdoor Rate BMP-compliant and have a business where the watering is essential to the product of the business (nurseries), golf courses and government parks, ball fields, and cemeteries.
  - c. Division 3: Customers that are indoor/outdoor Rate BMP-compliant and have outdoor landscape irrigation exceeding the 10% parcel limit for Division 1, as well all Rate BMP-compliant irrigation meters, as previously noted in Special Condition 6 (a).
  - d. Division 4: Customers that are not in compliance with Rate BMPs.
5. Upon approval of the tariff all customers who respond to the request to provide self-certified Rate BMP information will be appropriately categorized into Division 1, 2, 3 or 4 immediately so that all bills issued under the new tariff reflect the provision of a completed survey.
6. Customers that are subsequently found to be non Rate BMP compliant will be given 30 days from the date of notification to achieve compliance as noted in the non-compliance letter.
7. All Del Monte Forest golf courses served with emergency potable water from the connection at the Viscaino tank will be assigned an emergency allocation of 30 AF/year. Any potable use within this allotment will be billed at customer Division 1 rates. Usage above the annual allotment would be billed at customer Division 2 rates.

8. Rate BMP Compliant will be defined as follows:

a. Indoor Usage

- i. Showerheads – Maximum flow rate of 2.5 gallons per minute (“GPM”).
- ii. Washbasin faucets with a maximum flow rate of 2.5 GPM.
- iii. Ultra low flow toilets (1.6 gallons per flush (“GPF”)), High Efficiency Toilets (1.28 GPF) or Ultra High Efficiency Toilets (0.8 GPF). All toilets replaced after December 31, 2014 will have to be High Efficiency or Ultra High Efficiency
- iv. Water efficient urinals designed to flush with a maximum of 1.0 GPF. Includes High Efficiency Urinals (0.5 GPF), pint urinals (0.25 GPF), or waterless urinals. All urinals replaced after December 31, 2014 will have to be High Efficiency, Ultra High Efficiency, or waterless.
- v. Water Efficient (1.6 GPM) Pre-Rinse spray valves (as applicable), Medical and laboratory photographic, and/or X-Ray processing systems must recirculate water used in the rinse process.
- vi. Visitor-serving, Public, and Quasi-Public facilities must display placards or decals promoting water awareness and the need for conservation in visible locations in restrooms, kitchens, and dining areas.
- vii. Visitor-serving facilities must offer towel and linen reuse programs by providing written notice in the rooms.
- viii. Restaurants must provide written notice that drinking water is available only upon request. Notices must be placed on tables and/or menus. Drinking water will not be provided from the Monterey Peninsula Water Resource System, unless specifically requested.

b. Outdoor Usage

- i. All supplemental irrigation systems require the use of an automated irrigation controller, which must include a water budget feature and may include products, which rely on soil or weather sensors to adjust irrigation schedules.
- ii. Turf grass areas that receive supplemental irrigation must be watered with gear drive rotor sprinklers, multi stream, multi trajectory rotating sprinklers, high efficiency fixed spray nozzles or sub surface low volume emitters.
- iii. Low volume irrigation is encouraged for landscaped areas containing trees, shrubs and groundcover. The use of standard fixed spray nozzles will not be allowed in landscape beds measuring 3’ or less.
- iv. All automated irrigation controllers must include sensors, or devices that interrupt, or delay a scheduled irrigation event due to rainfall that equals or exceeds an established threshold.
- v. Hoses, used to hand water landscaped areas must be equipped with a positive shut off device.

9. The rate for Division 1 will be defined as the CCCBR for non-residential billing and will be set at the 100% level. It will be solved for in consideration of the fact that the rate for Division 2 shall be set at 112.5% of the Division 1 CCCBR, the rate for Division 3 will be set at 125% of the CCCBR and the rate for Division 4 will be set at 250% of the CCCBR.

10. Leak adjustments will be provided in accordance with present determination of eligibility and calculated by billing all determined excess usage as a result of the leak at the SBR. The "Standard Base Rate" ("SBR") is defined as the quantity rate derived from the Commission's Standard Rate Design calculation, as established in D.86-05-064, for each of the customer class groupings and is the sum of the remainder of fixed costs not recovered through the fixed fees, plus variable costs, divided by the total authorized consumption.

11. Every meter will be categorized and issued a single bill unless a customer requests that a single consolidated bill be provided and then only if the system is capable of doing so without loss of any necessary data or delays in billing.

12. **Moratorium:** In portions of the Monterey District served, in whole or part, by Carmel River diversions, and subject to the following conditions and restrictions, California-American Water Company shall deny requests for new service connections and prohibit any increased use of water at existing service addresses resulting from a change in zoning or use:

(L)

- a. California-American Water Company shall not deny such requests or prohibit such increased use where all necessary written approvals for project construction and connection to California-American Water Company's system had been obtained prior to October 20, 2009;
- b. California-American Water Company shall not deny the installation of additional meters at an existing service provided that the additional metering does not result in an increase in water use.
- c. This special condition does not authorize California-American Water Company to deny service to:
  - i. the area served by the Carmel Area Wastewater District Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinances 39 and 109 and Rule 23.5, prior to January 1, 2017 ;
  - ii. the area served by the Sand City Water Entitlement pursuant to Monterey Peninsula Water Management District Ordinance 132 and Rule 23.6;
  - iii. Security National Guaranty, Inc. under its frontloading agreement;
  - iv. the Ralph Lane, Chular, Bishop, Ambler Park, Ryan Ranch, Hidden Hills, and Toro subsystems within the Monterey District; and
  - v. a connection or increased use where an authorized official of the State Water Resources Control Board has given written approval.

GENERAL METERED SERVICE

SPECIAL CONDITIONS

General Items:

- 1. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

- 2. Any residential customer who has been required to install a Residential Fire Sprinkler System (R.F.S.S.) at their place of residence by local fire ordinances will be allowed to have their monthly service charge reduced by one meter size for 3/4" and 1" meters and a reduction of two meter sizes for all 1-1/2" meters, provided it has been requested by the customer and verified by the Company that the lower size of meter would be large enough to provide adequate service to the residence. The R.F.S.S. Service is not considered a fire service by the Company, but is considered an oversized general metered service and therefore, only the rules and conditions of service for general metered service apply.
- 3. In accordance with Section 2714 of the Public Utilities Code, if a tenant in a rental unit leaves owing the company, service to subsequent tenants in that unit will, at the company's option, be furnished on the account of the landlord or property owner.

Fees and Surcharges:

- 1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
- 2. A 1.00% surcharge is included on each bill to collect franchise taxes and/or business license fees paid to Monterey County. The amount collected is based on a percentage of the gross revenues of each bill.

SPECIAL CONDITIONS:

General Items:

- 1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.
- 2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

(T)

Fees and Surcharges:

- 1. All bills are subject to the reimbursement fee set forth in Schedule No. UF.
- 2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is 2.0% based on gross revenues before taxes and PUC fees for the County of Ventura and the City of Thousand Oaks.
- 3. Per Advice Letter 1072, a surcharge of \$0.0062 per 100 gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission.
- 4. Per Advice Letter 1072, a surcharge of \$1.54 for the Low Income Ratepayer Assistance Program ("LIRAP") Balancing Account will be collected from all non-low income water and wastewater customers.
- 5. MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS:

General Items:

1. To better manage peak demands, there will be time and day of use restrictions on all measured irrigation services. Customers will be split into two groups who will irrigate on alternate days and only during cooler evening and morning hours. Customers with even numbered addresses will be allowed to irrigate only on even numbered days of the month and customers with odd numbered addresses will be allowed to irrigate only on odd numbered days of the month.

(L)

a. Limits on water hours: Water or irrigating of lawn, landscape or other vegetated area with water is prohibited between the hours of 9:00 a.m. and 5:00 p.m. on any day.

b. Fines and Flow Restrictors:

- i. During 2012 California American Water will only issue warnings to customers who violate of the day and time of use restrictions.
- ii. Beginning in 2013, California American Water may impose penalties on customers who violate the day and time of use restrictions if peak use in 2012 continued to necessitate supplementation of the system with potable water.
- iii. Penalties for violation of the day and time of use restrictions will become effective upon California American Water filing a Tier 1 Advice Letter
- iv. If the Utility determines that a customer is in violation, the customer will be subject to the following fine structure.

First Offense: Written warning, including explanation of penalty for subsequent offense.

Second Offense: Written warning, including explanation of penalty for subsequent offense and a \$100 fine.

Third Offense: Installation of flow restrictor, and written warning, including explanation of penalty for subsequent offense.

v. Flow Restrictor Removal Charge: The charge for the removal of a flow restrictor shall be:

<u>Connection Sizes</u>	<u>Removal Charges</u>

LOW INCOME RATEPAYER ASSISTANCE PROGRAM

SPECIAL CONDITIONS APPLICABLE TO LOW INCOME

General Items:

(L)(T)

1. **Low Income Ratepayer Assistance Program (LIRA)** (Continued):

- b. **Application and Eligibility Declaration:** An application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration will be required every two years and may be required on an annual basis. Customers are only eligible to receive service under this rate schedule at one residential location at any one time, and the rate applies only to the customer's permanent primary residence. This schedule is not applicable where, in the opinion of the Company, either the accommodation or the occupancy is transitory. Customers may self-certify and may be requested to present documentation verifying participation in a low income assistance program.
- c. **Commencement of Rate:** Eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's application by the Company.
- d. **Verification:** Information provided by the applicant is subject to verification by the Company. Refusal or failure of a customer to provide documentation of eligibility acceptable to the Company, upon the request of the Company, shall result in removal from this rate schedule.
- e. **Notice from Customer:** It is the customer's responsibility to notify the Company if there is a change in the customer's eligibility status. Notification should be made within 30 days of the customer's change in eligibility.
- f. Customers may be re-billed for periods of ineligibility under the applicable rate schedule.

PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS APPLICABLE TO MONTEREY COUNTY DISTRICT (continued)

- 1. Customers who use Cal-Am’s system to provide for fire flow, but do not receive their domestic supply from Cal-Am, will pay a special Private Fire Service rate equal to either the higher of the standard rate for their size service or a rate equal to the sum of the standard monthly Service Charges that would be billed for all the properties served by the Private Fire Service if they did receive domestic service. All fire service to non-domestic customers will be considered private fire service. If a new public fire hydrant is required to be installed for a non-domestic customer and other customers will benefit, no fee will be charged. (L)
- 2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: Ryan Ranch 2.05%, City of Pacific Grove 2.10%, City of Carmel-by-the-Sea 2.15%, City of Seaside 1.00%, City of Del Rey Oaks Business License Fee 0.11%, City of Del Rey Oaks Franchise Fee 2.00%, City of Sand City 0.14%, City of Monterey 1.05%, and unincorporated areas of Monterey County 1.00%. (L)
- 3. Coastal Water Project (CWP) Surcharge #1: Per Decision 06-12-040, a surcharge will be applied to customer bills to collect for pre-construction costs associated with the CWP. Costs to be recovered through CWP Surcharge #1 include \$1,353,831 in public outreach costs and \$1,639,429 in other costs, for a total of \$2,993,260. A surcharge of 4% will be added to all bills rendered from January 1, 2007 through June 30, 2007. The surcharge will be increased to 7% from July 1, 2007 through December 31, 2007 and will increase to 10% from January 1, 2008 through September 29, 2011. On September 30, 2011, the surcharge will increase to 15% through a time when the outstanding approved amounts, with interest, are recovered. Schedule No. CA-4H (Continued)  
California American Water Tariff Area  
PRIVATE FIRE HYDRANT SERVICE

SPECIAL CONDITIONS APPLICABLE TO ALL SERVICE AREAS (continued)

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing the detector type check valve and meter and appurtenances thereto shall be in a location mutually agreeable to the applicant and the Utility. Normally, such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter, detector type check valves, backflow devise and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The Utility and its duly authorized agents shall have the right to ingress and to egress from the premises for all purposes relating to said facilities.
4. The minimum diameter will be 6 inches, and the maximum diameter will be the diameter of the main to which the service is connected.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does no exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire hydrant service which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention devise and a standard detector type meter approved by the Insurance Services Offices for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.

PRIVATE FIRE HYDRANT SERVICE

SPECIAL CONDITIONS APPLICABLE TO ALL SERVICE AREAS (Continued):

(L)

- 8. Subject to the approval of the Utility, any change in the location or construction of the fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change.
- 9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore under Schedule No. 1 General Metered Service for the applicable district, at the regular established rate for general metered service, including applicable surcharges, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
- 10. All bills are subject to the reimbursement fee set forth on Schedule No. U.F.

(L)

SPECIAL CONDITIONS APPLICABLE TO MONTEREY DISTRICT:

- 1. Customers who use Cal-Am's system to provide for fire flow, but do not receive their domestic Supply from Cal-Am, will pay a special Private Fire Service rate equal to either the higher of the standard rate for their size service or a rate equal to the sum of the standard monthly Service Charges that would be billed for all the properties served by the Private Fire Service if they did receive domestic service. All fire service to non-domestic customers will be considered private fire service. If a new public fire hydrant is required to be installed for a non-domestic customer and other customers will benefit, no fee will be charged.
- 2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. F. Affiliate Transaction Rule IV.D.2 Memorandum Account ("ATRMEMO") (C)

1. PURPOSE:

The purpose of the Affiliate Transaction Rule IV.D.2 Memorandum Account ("ATRMEMO") is to track the fees paid to the utility for the transfer, assignment, or employment of an employee by an affiliate in compliance with Affiliate Transaction Rule IV.D.2. California American Water was granted authority to establish this memorandum account by Ordering Paragraph 8 of Decision (D.) 10-10-019, which adopted the Rules for Water and Sewer Utilities Regarding Affiliate Transactions and the Use of Regulated Assets for Non-Tariffed Utility Services. California American Water was granted authority to continue this account in Decision (D.) 15-04-007. (C)

2. APPLICABILITY:

All areas served by California American Water.

3. ACCOUNTING PROCEDURE:

Rule IV.D.2 provides that fees paid shall be accounted for in a separate memorandum account which tracks them for future ratemaking treatment either on an annual basis, or as otherwise necessary to ensure that the utility's ratepayers receive the fees.

- a. A credit entry will be made to a regulatory liability account for transfer fees. (C)
- b. A debit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval. (N)

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, ATRMEMO balances shall be transferred to the district CEBA's for refund. California American Water will apply the fees, proportionally based upon the customer service connections, to the applicable district(s) affected by such transfer, assignment or employment. (N)

G. Carmel River Mitigation Program Balancing Account

(C)(L)

1. PURPOSE:

The purpose of the Balancing Account is to track costs related to the Interim Implementation Agreement for the Carmel River Mitigation Program. Per the agreement, California American Water reimburses the Monterey Peninsula Water Management District (MPWMD) for its work on the program. It also contains the balance of previously recorded and transferred costs from the prior MPWMD User Fee Memorandum Account. California American Water was granted authority to continue this account in Decision (D.) 15-04-007.

2. APPLICABILITY:

The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service Areas

3. ACCOUNTING PROCEDURE:

The following entries shall be recorded to the balancing account:

- a. A debit entry will be created each month to record expenses associated with the agreement
- b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
- c. A credit entry equal to the amount of surcharge collected to offset the costs associated with the program.

(C)  
(N)

4. RATEMAKING PROCEDURE:

The annual costs of the program are \$2,367,219 in 2015, \$2,456,888 in 2016 and \$2,580,129 in 2017. These costs are capped annually at the listed amounts and will be collected through a surcharge applied against the meter and total tiered rates.

H. Catastrophic Event Memorandum Account ("CEMA") (C)

1. PURPOSE:

The purpose of the CEMA is to recover the costs resulting from a catastrophic event declared a disaster or state of emergency by competent federal or state authorities. These costs can include but are not limited to expenses related to the restoration of service and California American Water facilities affected by the catastrophic event. California American Water was granted authority for this account in CPUC Resolution E-3238, dated July 24, 1991. (C)

Should a disaster occur, California American Water will inform the Executive Director of the CPUC by letter within 30 days after the catastrophic event that California American Water has started booking costs in the CEMA.

The letter shall specify the declared disaster, date, time, location, service area affected, impact on California American Water's facilities, and an estimate of the extraordinary costs expected to be incurred, with costs due to expenses and capital items shown separately.

California American Water shall not record any capital costs or expenses incurred prior to the start of the declared disaster or state of emergency, as identified by the appropriate Authorities, pursuant to Government Code Sections 8558, 8588, and 8625, or comparable federal authority.

Descriptions of the terms and definitions used in this section are found in Rule 1.

2. APPLICABILITY:

The CEMA balance will be recovered from all customer classes, except those specifically excluded by the CPUC.

3. CEMA RATES:

The CEMA does not currently have a rate component. Any balance in the CEMA will be recovered in rates after CPUC review and audit of the recorded CEMA balance. (N)

4. ACCOUNTING PROCEDURE:

Upon declaration of a disaster or state of emergency, California American Water shall maintain the CEMA from the date of the event causing the disaster occurred by making entries to this account at the end of each month as follows:

- a. A debit entry equal to the amounts recorded in California American Water's Operations and Maintenance, and Administrative and General Expense Accounts that were incurred as a result of the disaster and related events.

J. Cease and Desist Order Memorandum Account ("CDOMA") (C)

1. PURPOSE:

The purpose of the Cease and Desist Order Memorandum Account ("CDOMA") is to track outside legal counsel; experts needed to represent California American Water in administrative proceedings; temporary legal measures regarding stays of the CDO; court appeals related to any final CDO adopted by the SWRCB; challenges, clarifications, and/or compliance with the CDO including any additional or more stringent conservation and reporting activities, the development and obtainment of water supply and water rights; and any and all other immediate activities beyond those approved in the general rate case related to the CDO to address the State Water Resources Control Board ("SWRCB") Cease and Desist Order for unauthorized diversion of water from the Carmel River in the Monterey District. California American Water was granted authority to continue this balancing in Decision (D.) 15-04-007. (C) (C) (C) (C) (N) (N)

2. APPLICABILITY:

The Monterey County District Main Service Area. (C)

3. ACCOUNTING PROCEDURE:

The following entries will be recorded to the memorandum account: (C)

- a. A debit entry will be created each month to record expenses associated with the SWRCB CDO.
- b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor. (N)
- c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund. (N)

L. Los Angeles County and Sacramento Districts Chromium-6 Memorandum Accounts Chromium 6 (Hexavalent Chromium) Memorandum Accounts

1. PURPOSE: The purpose of the Los Angeles County and Sacramento Districts Chromium-6 Memorandum Accounts (LA County and Sacramento Districts Chromium-6 MAs) is to track the incremental costs incurred to comply with the final Chromium-6 Maximum Contaminant Level (MCL) or drinking water standard adopted by the California Department of Public Health (CDPH). California-American Water Company (California American Water) may begin tracking incremental costs in these accounts once a final drinking water standard is adopted by the CDPH, and may request recovery of the tracked costs through a one-time Tier 3 advice letter per district, or through its next GRC, according to the procedures described below.
2. APPLICABILITY: Applicable to the Los Angeles County district and Sacramento district. The LA County and Sacramento Districts Chromium-6 MAs are to be closed as part of California American Water's 2016 general rate case application (for Test Year 2018) pursuant to a reasonableness review.
3. RATES: The LA County and Sacramento Districts Chromium-6 MAs have no rate component.
4. ACCOUNTING PROCEDURE: After a final drinking water standard for Chromium-6 is adopted by the CDPH, California American Water shall make the entries described below. The "incremental costs" that may be tracked in these accounts include: engineering, design, permitting, construction, capital carrying, labor, overhead, operations and maintenance, one-time and ongoing operational and monitoring expenditures for treatment most suited to a particular site or sites; potential acquisition expenditures of purchasing land to construct treatment facilities, and/or expenditures related to well abandonment as a cost-effective strategy for compliance, and capital related costs (including return on investment, income taxes, ad valorem tax, depreciation, and other taxes and fees) that are over and above those that the Commission has approved for recovery through base rates. California American Water may not track in this memo account costs that can be reasonably forecasted for inclusion in California American Water's next general rate case application, to be filed in May 2016 (i.e. California American Water may not include in these memorandum accounts costs and revenue requirement expected to be incurred starting in January 1, 2018, the beginning of the GRC cycle following A.13-07-002).
  - a. A debit or credit entry equal to incremental expenses for compliance with the final drinking water standard, as described above;
  - b. A debit or credit entry equal to the incremental revenue requirement of each operationally in-service and closed to plant capital investment for compliance with the final drinking water standard (including return on investment, income taxes, ad valorem tax, depreciation, and other taxes and fees), as described above;
  - c. A monthly debit or credit entry equal to the average balance in each segment of the account multiplied by 1/12th of the most recent month's interest rate on Commercial Paper (prime, 90-day) published in the Federal Reserve Statistical Release H-15.
  - d. Account balances will be amortized as part of a general rate case or via advice letter, at the Company's discretion, per Standard Practice U-27-W.
5. EFFECTIVE DATE: The LA County and Sacramento Districts Chromium-6 MAs are effective the date the California Department of Public Health's final Chromium-6 drinking water standard regulation is approved by the Office of Administrative Law.
6. REGULATORY PROCEDURE
  - a. Required justifications: For each capital project, California American Water will provide detailed justifications that contain least-cost analyses considering all feasible alternatives, including but not limited to blending, removing the well from active status, and Best Available Technologies ("BATs") for chromium-6 treatment as specified in Title 22, California Code of Regulations. The need to maintain the affected well's active status, thus requiring capital investment, must be supported with consideration of the district's available water supply resources, including new supply projects authorized in the 2013 GRC.
  - b. For recovery through an advice letter: California American Water may only file one Tier 3 advice letter per district. When the last capital project in a district is nearing completion (operationally in-service and closed to plant), approximately one month before an advice letter seeking recovery is filed, California American Water will confer with the Office of Ratepayer Advocates to alert it of the advice letter filing, and begin providing the data supporting both the capital projects and expenses in the memo accounts for which recovery will be requested. The advice letter will request (a) inclusion of the revenue requirements for the authorized projects in rates going forward, and (b) a surcharge to recover the incremental revenue requirement and expenses tracked in the memo accounts.
  - c. For recovery in a GRC: To the extent that incremental Chromium-6 costs are not included in the beginning plant balance for the next GRC, or are not otherwise recovered, California American Water may request cost recovery in the next GRC. In that event, California American Water shall note the request in the LA County and Sacramento Districts Chromium-6 MAs s for tracking purposes.

N. San Diego County District Voluntary Conservation/Rationing Memorandum Account (C)

California-American Water Company requests to establish a Conservation/Rationing Memorandum Account (CRMA) for its San Diego County District.

1. PURPOSE: The purpose of the CRMA is to track all expenses incurred by the Utility to activate Rule 14.1 and/or Schedule 14.1 that have not been considered in a General Rate Case or other proceeding in its San Diego County District.
2. APPLICABILITY: The CRMA will record the operating costs and administration costs associate with complying and implementing the mandated conservation practices outlined in Rule 14.1-SO voluntary conservation, Schedule 14.1-SD mandatory rationing efforts, and other activities such as those associated with any Drought Emergency Declaration and drought procedures ordered by the Commission for water conservation upon the activation of Rule 14.1-SO and/or Schedule No. 14.1-SD in its San Diego. The memorandum account will also track the penalties or fees, which may be imposed by the relevant water agency, related to California American Water exceeding any assigned allocation. Any additional revenue generated from the above in its San Diego will also be recorded in this memorandum account. The authority to establish this account was granted in Resolution W-4976 dated February 27, 2014.
3. ACCOUNTING PROCEDURE: California-American Water Company shall maintain the CRMA by making entries at the end of each month as follows:
  - a. A debit entry shall be made to the CRMA at the end of each month to record the incremental expenses or penalties paid.
  - b. A credit entry shall be made to the CRMA at the end of each month to record the penalty charges collected.
  - c. Interest shall accrue to the CRMA on a monthly basis by applying a rate equal to one-twelfth of the 3-month non-financial Commercial Paper Rate, as reported in the Federal Reserve Statistical Release, to the average of the beginning-of-month and the end-of-month balances.
4. EFFECTIVE DATE: The CRMA shall go into effect on March 13 2014, the filing date of Letter to the CPUC Water Branch notifying the Commission of the Activation of Schedule 14.1.
5. TERMINATION DATE: California-American Water Company will terminate this memorandum account when voluntary conservation is deactivated per Rule 14.1.
6. DISPOSITION: Disposition of amounts recorded in the CRMA will be determined in a regulatory proceeding, as authorized by the Commission.

V. Sacramento District Voluntary Conservation/Rationing Memorandum Account. (C)

California-American Water Company requests to establish a Conservation/Rationing Memorandum Account (CRMA) for its Sacramento District.

1. **PURPOSE:** The purpose of the CRMA is to track all expenses incurred by the Utility to activate Rule 14.1 and/or Schedule 14.1 that have not been considered in a General Rate Case or other proceeding in its Sacramento District.
2. **APPLICABILITY:** The CRMA will record the operating costs and administration costs associated with complying and implementing the mandated conservation practices outlined in Rule 14.1-NO voluntary conservation, Schedule 14.1-SC mandatory rationing efforts, and other activities such as those associated with any Drought Emergency Declaration and drought procedures ordered by the Commission for water conservation upon the activation of Rule 14.1-NO and/or Schedule No. 14.1-SC in its Sacramento District. The memorandum account will also track the penalties or fees, which may be imposed by the relevant water agency, related to California American Water exceeding any assigned allocation. Any additional revenue generated from the above in its Sacramento District will also be recorded in this memorandum account. The authority to establish this account was granted in Resolution W-4976 dated February 27, 2014.
3. **ACCOUNTING PROCEDURE:** California-American Water Company shall maintain the CRMA by making entries at the end of each month as follows:
  - a. A debit entry shall be made to the CRMA at the end of each month to record the incremental expenses or penalties paid.
  - b. A credit entry shall be made to the CRMA at the end of each month to record the penalty charges collected.
  - c. Interest shall accrue to the CRMA on a monthly basis by applying a rate equal to one-twelfth of the 3-month non-financial Commercial Paper Rate, as reported in the Federal Reserve Statistical Release, to the average of the beginning-of-month and the end-of-month balances.
4. **EFFECTIVE DATE:** The CRMA shall go into effect on March 13 2014, the filing date of Letter to the CPUC Water Branch notifying the Commission of the Activation of Schedule 14.1.
5. **TERMINATION DATE:** California-American Water Company will terminate this memorandum account when voluntary conservation is deactivated per Rule 14.1.
6. **DISPOSITION:** Disposition of amounts recorded in the CRMA will be determined in a regulatory proceeding, as authorized by the Commission, or through a Tier 3 Advice Letter filing.
7. **AL HISTORY:** AL 1038 – Creation of the Sacramento District Conservation and Rationing Memorandum Accounts

W. Consolidated Expense Balancing Account ("CEBA") (C)(L)

1. PURPOSE:

The purpose of the Consolidated Expense Balancing Account is to consolidate the amortization of Commission approved balancing and memorandum accounts where appropriate. California American Water was granted authority to continue this balancing account in Decision (D.) 15-04-007. (C)

2. APPLICABILITY:

Applicable districts served by California American Water. (C)

3. ACCOUNTING PROCEDURE:

The following entries will be recorded to the CEBA: (C)

- a. Authorized balancing or memorandum account under collections will be credited from the current account and debited to the CEBA.
- b. Authorized balancing or memorandum account over collections will be debited from the current account and credited to the CEBA.
- c. Any surcharge collections will be applied as a credit to the overall balance.
- d. Any surcredits will be applied as a debit to the overall balance.
- e. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor. (C)

4. RATEMAKING PROCEDURE:

The CEBA is recoverable through a Tier 1 advice letter filing. If the net CEBA balance after incremental transfers is under collected, the account will be amortized by applying a uniform volumetric surcharge. If the net CEBA balance after incremental transfers is over collected, the net over collection shall be amortized and credited to the service charge of all customers, based upon the meter equivalent size of the service connection. X. Emergency Rationing Costs Incurred by CAW Memorandum Account

(N)

1. PURPOSE:

The purpose of this memorandum account is to track increased expenses that California American Water would incur in its Monterey County District in the event that rationing is implemented under the Monterey Peninsula Water Management District's (MPWMD) Ordinance No. 92. Ordinance No. 92 is an expanded water conservation and standby water-rationing plan whose implementation requires both California American Water and MPWMD to engage in activities to promote, monitor and enforce its terms. The account shall also capture costs of MPWMD that are considered reasonable and prudent. California American Water was granted authority to continue this account in Decision (D.) 15-04-007.

2. APPLICABILITY:

The Monterey County District Main, Hidden Hills, Ryan Ranch, and Bishop Service.

3. ACCOUNTING PROCEDURE:

Upon implementation of rationing, California American Water shall maintain the account from the date of declaration by making entries at the end of each month as follows:

- a. A debit entry to record expenses associated with the emergency rationing.
- b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.
- c. A credit entry to transfer all or a portion of the balance in this account to other adjustment clauses for future rate recovery, as may be approved by the CPUC.

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision.

1. PURPOSE:

The purpose of the LIRAP Balancing Account is to track the LIRAP discounts provided, the LIRAP surcharges collected, and to adjust the LIRAP surcharges on January 1 of each year. The surcharge will be applicable to all non-low income water and wastewater customers. California American Water was granted authority to establish this account in Decision (D.) 15-04-007.

2. APPLICABILITY:

All areas served by California American Water.

3. ANNUAL SURCHARGE ADJUSTMENT:

The surcharge will be evaluated and adjusted annually in the annual Step rate filings and will reflect:

a. A forecast of the December 31st balance in the LIRAP for the current year that reflects.

- i. the most recent recorded balance;
- ii. the assumption that the proportion of LIRAP to non-LIRAP residential enrollment in September will remain constant as a proportion of adopted numbers for October through December; and
- iii. the assumption that current LIRAP surcharges will be applied to the estimated non-LIRAP portion of adopted sales (adopted sales minus estimated LIRAP sales based on the proportion of LIRAP to non-LIRAP residential customers in September), plus interest; and

b. A forecast of the December 31 balance in the LIRAP for the following year that reflects:

- i. the assumption that the proportion of LIRAP to non-LIRAP residential enrollment in September of the previous year will remain constant as a proportion of adopted numbers; and
- ii. the assumption that the new surcharges will be applied to the estimated non-LIRAP portion of adopted sales (adopted sales minus estimated LIRAP sales based on the proportion of LIRAP to non-LIRAP residential customers in September of the previous year), plus interest.

AJ. Pension Balancing Account ("PBA") (C)

1. PURPOSE:

The purpose of the Pension Balancing Account ("PBA") is to track the difference between Commission-authorized pension costs and actual pension payments calculated according to ERISA. California American Water was granted authority to continue this account in Decision (D.) 15-04-007. (C)

2. APPLICABILITY:

All areas served by California American Water (C)

3. ACCOUNTING PROCEDURE:

The following entries shall be recorded to the balancing account: (C)

a. The PBA shall be calculated monthly. The calculation shall be the expense difference of the adopted costs and the actual required payments. (C)

b. A debit or credit entry will be created each month to record the expense difference discussed above. (C)

c. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor. (N)

d. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's (CEBA) upon Commission approval.

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the balancing account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund. (N)

AK. San Clemente Dam Balancing Account (C)

1. PURPOSE:

The purpose of the San Clemente Dam Balancing Account is to track all the authorized and actual expenditures as they are incurred for the Carmel River Reroute and San Clemente Dam Removal Project as authorized in D.12-06-040 and AL 955, effective July 1, 2012. This includes, but it not limited to, incurred pre-construction costs, permitting, compliance review and preliminary engineering costs, construction costs, interim dam and environmental safety measures, post-construction mitigation measures, and other application costs. (C)

2. APPLICABILITY:

Applicable to the Monterey County District Monterey Main, Ryan Ranch, and Bishop service areas (C)

3. ACCOUNTING PROCEDURE:

California American Water was granted authority to establish a balancing account which will track actual expenditures for the project as they are incurred. The construction cost cap is \$49 million, excluding the pre-construction costs and its related interest, interim dam safety and environmental costs for annual drawdowns and post- construction mitigation costs. The actual balance of the balancing account, less accumulated amortization and associated deferred taxes, will be authorized to earn a return based on the currently authorized cost of capital. The balancing account will be closed at the time the regulatory asset moved into base rates. The balance at that point will remain in the regulatory asset/balancing account and will continue to be collected over the remainder of the twenty year collection period using an updated levelized revenue requirement based on the ending net regulatory asset/balancing account balance, the current authorized cost of capital, the remaining years in the twenty year recovery period, projected deferred taxes, uncollectible account expenses and taxes. The levelized revenue requirement set in base rates may still need to be adjusted periodically for changes in authorized cost of capital or for other items that may be delayed into the account such as the tax benefits of the land donation.

- a. A debit entry will be made for project costs and their associated cost of capital.
- b. A credit will be made for the portion of surcharge collection that represents amortization of project costs. Amortization is calculated subtracting cost of capital, taxes and uncollectable accounts expenses from the total surcharges billed.

4. RATEMAKING PROCEDURE:

California American Water will recover the revenue requirement of the regulatory/ balancing account through a surcharge in the applicable service areas. The regulatory asset will be moved into base rates on the first day of the first test year following final project review. (C)

1. PURPOSE:

The purpose of the Sand City Desalination Plant Purchased Water Balancing Account is to track Sand City Desalination Plant production costs and associated recoveries. California American Water was granted authority for the balancing account in Decision D.13-04-015 and authority to maintain this balancing account in Decision (D.) 15-04-007. (C)(N) (N)

2. APPLICABILITY:

The Monterey County District Main Service Area (C)

3. ACCOUNTING PROCEDURE:

The authorized price per acre foot is determined as follows: (C)

Repair Costs	\$197,379
Other O&M Costs	\$99,821
Purchased Power	\$168,765
Property Taxes	\$68,509
Total Variable Cost	\$534,474
Fixed Cost	\$414,672
Total Cost	\$949,146
Divided by AF	300
Price per AF	\$3,164

The following entries shall be recorded to the balancing account:

- a. A debit entry equal to the authorized price per acre foot above multiplied by the actual number of acre feet delivered less any amounts delivered to Moratorium Exception Service Tariff customers.
- b. A credit entry equal to the amount of surcharges collected to offset the costs.
- c. An annual true up entry for actual purchased power costs.
- d. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor

4. RATEMAKING PROCEDURE:

- a. Fixed Cost: this amount shall not change for each year over the period of time water is purchased and delivered to the Monterey District for use by District customers, shall not be subject to further review, escalation, or modification, and may in no way be increased to reflect any other cost related to the Sand City Desalination Plant. AP. Tax Act Memorandum Account

(N)

1. PURPOSE:

The purpose of the Tax Act Memorandum Account is to reflect any changes in the revenue requirement that could result from changes in Federal Tax Law with regard to bonus depreciation, should the utility take advantage of the new law. Such changes may include, but not limited to, impacts on Section 199 deductions, working cash, and contributions in aid of construction. So as not to discourage utilities from using the tax savings resulting from the New Tax Law for investment in additional, needed infrastructure, the costs and expenses of that infrastructure not otherwise reflected in rates shall also be reflected in the memorandum account, to the extent allowed by the limitations specified in Commission Resolution L-411A. The account shall be effective the date of Decision (D.) 15-04-007.

2. APPLICABILITY:

All areas served by California American Water.

3. ACCOUNTING PROCEDURE:

The following entries shall be recorded effective with the date of Decision (D.) 15-04-007 and any change to the Federal Tax Law with regard to bonus depreciation:

- a. Debit for decrease in revenue requirement resulting from increases in deferred tax reserve.
- b. Credit for increase in revenue requirement resulting from the impact of any decrease in Section 199 deductions resulting from bonus depreciation taken.
- c. Credit or debit for increase or decrease, respectively, in revenue requirement resulting from impact of any calculations in the calculation of working cash resulting from the New Tax Law or from bonus depreciation taken.
- d. Credit or debit for increase or decrease, respectively, in revenue requirement resulting from any other direct change in revenue requirement resulting from the Utility's taking advantage of the New Tax Law.
- e. Credit for increase in revenue requirement resulting from additional Utility infrastructure investment consistent with the limitations set forth by Ordering Paragraph 5 of Resolution L-411A and detailed in Purpose of this Preliminary Statement.
- f. Balances in the Tax Memorandum Account will accrue interest at the 90-day commercial paper rate.

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the memorandum account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

AQ. Water Cost of Capital Adjustment Mechanism

(C)

1. PURPOSE: The purpose of the Water Cost of Capital Adjustment Mechanism is to provide for an automatic adjustments, up or down as the case may be, to a water utility's adopted return on equity for 2009 (and thus it's overall rate of return on rate base for 2009) for years 2010 and 2011 only if there is a positive or negative difference of more than 100 basis points between the then current 12-month October 1 through September 30 average Moody's utility bond rates and a benchmark.
2. APPLICABILITY: All districts of California American Water.
3. ACCOUNTING PROCEDURE: California American Water was granted authority to maintain this adjustment mechanism adopted in Appendix A of Decision (D.) 09-07-051.
  - a. The initial benchmark is equal to the average interest rate of Moody's Aa utility bonds for AA or A credit-rated utilities or higher, or Moody's Baa utility bonds for BBB+ credit-rated utilities or lower for the period October 1, 2007 to September 30, 2008. The subsequent October 1 through September 30 average also would be based on the foregoing parameters.
  - b. If the 100 basis point "deadband" (a range of change in interest rates that may occur without automatically triggering a change in embedded long-term debt and preferred stock costs and return on equities) is exceeded, California American Water's return on equity will be adjusted by one-half of the difference between the benchmark and the October 1 to September 30 average.
  - c. In any year where the 12-month October through September average of Moody's utility bond rates triggers an automatic return on equity adjustment, that average becomes the new benchmark.
  - d. If the 100 basis point "deadband" is exceeded, California American Water will file a Tier 2 advice letter by October 15 that updates return on equity and related rate adjustments to become effective on January 1 of the following year. The advice letter would also update long-term debt and preferred stock costs to reflect actual August month-end embedded costs in that year and forecasted interest rates for variable long-term debt and new long-term debt and preferred stock scheduled to be issued.
  - e. California American Water's capital structure, as adopted for base year 2009, shall not be adjusted.
  - f. Workpapers outlining the calculations relating to the change in return on equity, long-term debt costs, preferred stock costs and resulting changes in rates to become effective on the following January 1 are required to accompany the advice letter.

AT. Water Revenue Adjustment Mechanism / Modified Cost Balancing Account ("WRAM/MCBA") (C)

1. PURPOSE:

The purpose of the WRAM Balancing Account is to track the differences between recorded and Commission authorized water revenues. The MCBA tracks the differences between recorded and Commission authorized amounts for purchased water, power, and pump taxes. The Commission has determined that these mechanisms are appropriate in coordination with increasing block rate structures and increased conservation activities. (C)

2. APPLICABILITY:

Applicable customers in the following areas – Larkfield, Los Angeles County, Sacramento, San Diego County, Ventura County, and Monterey County's Ambler, Bishop, Hidden Hills, Main, Ryan Ranch, and Toro Service Areas. (C)

3. DEFINITIONS:

- a. Non-WRAM revenue is all revenue excluded from the WRAM account, including metered service charges, sale for resale customers, private fire service, private hydrant service, irrigation service, flat rate residential service, and other unmetered miscellaneous revenue.
- b. In addition, surcharges and surcredits, unless specifically included in adopted revenue requirement, are excluded from WRAM accounting.
- c. WRAM-eligible revenue is all revenue not excluded in 3.a, above. Generally, WRAM eligible revenue results from potable quantity charges to permanent residential, commercial, industrial and public authority customers.
- d. Recorded WRAM-eligible revenue is the amount of revenue billed to applicable customers in a particular period.
- e. Adopted WRAM-eligible revenue is the amount of usage- related revenue necessary in conjunction with authorized non- WRAM revenue to generate the adopted revenue requirement. (N)

4. ACCOUNTING PROCEDURE:

- a. The following entries will be recorded to each area's WRAM Balancing Account monthly and added to the prior accumulated monthly balance:
  - i. Recorded WRAM-eligible revenue
  - ii. Adopted WRAM-eligible revenue
  - iii. Total net WRAM balance = (i) minus (ii) (C)

- i. Calculate the actual non-revenue water for the period by determining the difference between each service area's production and each service area's consumption, in acre feet.
- ii. Adopted non-revenue water for each area shall be the targeted amounts.
- iii. A 5% one-way dead band will provide a cushion between the non-revenue water targets and the triggering of the penalty/reward mechanism. Multiply the target amounts by 1.05%.
- iv. If the actual non-revenue water is less than the adopted, subtract (i) from (ii). Multiply the difference by \$1,820.30 per AF. This total amount is a reward and represents an under-collection (debit balance).
- v. If the actual non-revenue water is greater than the adopted but less than the deadband amount in (iii) above, no penalty is incurred and no amount shall be recorded.
- vi. If the actual non-revenue water is greater than the adopted and greater than the deadband amount in (iii) above, subtract (i) from (iii). Multiply the difference by \$1,820.30 per AF. This is a penalty and represents an over-collection (credit balance). (N)(L)

Per D. 15-04-007, California American Water will transfer approved balances to each district's Consolidated Expense Balancing Account ("CEBA"). Any remaining historical balances shall be recovered subject to review in the next general rate case or through the advice letter process. For California American Water's 2015 General Rate Case cycle, forecasted costs were included in base rates, therefore such dollars should not be recorded to this memorandum account.

AW. Old Monterey Style Water Revenue Adjustment Mechanism ("Old WRAM") Balancing Account (C)

1. PURPOSE: (N)

The Old Monterey Style Water Revenue Adjustment Mechanism ("WRAM") Balancing Account was first approved in D.96-12-050 in conjunction with the rate design effective in Monterey at that time. This WRAM differs from the current WRAM account adopted in D.09-07-021, in that its purpose was to track the difference between revenues that would have been collected under the Commission's standard rate design and the tiered conservation rate design actually implemented. The purpose of the balancing account is to recover the Old WRAM amounts approved in Advice Letter 987. California American Water was granted authority to continue this account in Decision (D.) 15-04-007.

2. APPLICABILITY: (N)  
The Monterey County District Main Service Area

3. ACCOUNTING PROCEDURE: (C)  
The following entries shall be recorded to the balancing account:

- a. A credit entry equal to the amount of volumetric surcharges collected to offset the approved balance.
- b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor. (C)

4. RATEMAKING PROCEDURE: (N)  
Any existing balance at the time the surcharge expires on December 31, 2014 shall be reviewed in a Tier 2 advice letter filing or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA. Interest will continue to accrue at the 90-day commercial paper rate until the balance is fully recovered. (N)

AX. Operational Energy Efficiency Program Memorandum Account ("OEEPMA") (C)

1. PURPOSE:

The purpose of the Operational Energy Efficiency Program Memorandum Account ("OEEPMA") is to track costs and payments from Southern California Edison Company (SCE), Pacific Gas and Electric Company (PG&E) and San Diego Gas & Electric Company (SDGE) associated with the Operational Energy Efficiency Program (OEEP) approved in D.10-04-031 and 08-11-057.

California American Water was initially granted a Phase 1A Implementation Operational Energy Efficiency Program Memorandum Account (PIOEEPMA) in Advice Letter 814, effective December 25, 2009, to track OEEP costs incurred until the Commission issued D.10-04-030 (N)

Ordering Paragraphs 5 and 6 of D.10-04-030 granted an OEEPMA to replace any similar memorandum account that was previously established. California American Water subsequently filed Advice Letter 837 to rename the PIOEEPMA the OEEPMA. In accordance with Ordering Paragraph 6, the renaming of this memorandum account will not alter its original effective date. (L)

2. APPLICABILITY:

The Los Angeles, Monterey and San Diego Districts. (L)

3. ACCOUNTING PROCEDURE:

California American Water filed Advice letter 853 and 860 to track all reasonable construction and associated costs related to the Monterey and San Diego District's Research, Development and Demonstration (RD&D) Kw demand reduction and Kwh electrical energy recovery projects (C)

California American Water may seek recovery of its OEEPMA balance in its next general rate case or, if it does not have general rate cases, through a Tier 3 advice letter filing.

California American Water is not entitled to a presumption that the costs of the OEEP are appropriate types of costs to recover or that they are reasonable or prudently incurred. California American Water shall bear the burden of proving the prudence and reasonableness of the costs of the OEEP and the appropriateness of separate recovery of these costs.

AY. Purchased Water, Purchased Power and Pump Tax Balancing Account

(C)(L)

1. PURPOSE:

The purpose of the Purchased Water, Purchased Power and Pump Tax Balancing Account is to track differences in the aforementioned expenses based upon changes in recorded unit prices versus adopted. California American Water was granted authority to maintain this balancing account in Decision (D.) 15-04-007.

2. APPLICABILITY:

All customer classes of the Sacramento District

3. ACCOUNTING PROCEDURE:

With the approval of the MCBA in D.15-04-007, expense entries past December 31, 2014 will no longer be recorded to the account. However, prior balances will remain and interest will continue to accrue until all balances are transferred. The entries are as follows:

a. A debit entry will be created each month until December 31, 2014 to record expenses associated with the account. The expenses are determined as follows:

- i. Difference between recorded unit cost for purchased water and adopted, including service charges
- ii. Multiply difference in (i) by recorded quantities
- iii. Difference between recorded unit cost for purchased power and pump taxes and adopted
- iv. Multiply difference in (iii) by recorded quantities
- v. Total net balance = (ii) + (iv)

b. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day Commercial Paper, as reported in the Federal Reserve Statistical Release, H.15 or its successor.

c. A credit entry will be made to transfer the balances to the appropriate district Consolidated Expense Balancing Account's ("CEBA") upon Commission approval.

4. RATEMAKING PROCEDURE:

There is currently no ratemaking component to the balancing account. Requests for recovery of any balance are to be processed according to General Order 96-B and Standard Practices or otherwise determined in a Commission decision. Upon Commission review and approval, balances shall be transferred to the appropriate district CEBA's for recovery/refund.

AZ. Sacramento District Voluntary Conservation or Mandatory Rationing Revenue Adjustment Mechanism Memorandum Account.

(C)  
(L)

1. PURPOSE: The purpose of this Voluntary Conservation or Mandatory Rationing Revenue Adjustment Mechanism Account (VCMRRAMA) is to track impacts of voluntary conservation or mandatory rationing on quantity revenues for future disposition in the Sacramento district. The Commission has determined that this mechanism is appropriate in coordination with increasing water conservation activities or mandatory rationing required by outside governmental agencies or entities. The water revenues subject to this account is limited to those which may be affected by Rule 14.1 and Schedule 14.1.

2. APPLICABILITY: The MRRAMA is applicable to all quantity related rate revenue in the Sacramento district, excluding private and public fire protection revenue.

3. ACCOUNTING PROCEDURE: California-American Water Company shall maintain the VCMRRAMA by making entries at the end of each month as follows:

- a. The most recently adopted water sales revenues adjusted for all subsequent rate increases.
- b. Actual water sale revenue collected.
- c. Most recently adopted variable expenses for purchased water, pump tax and power.
- d. Actual recorded variable expenses.
- e. Total net VCMRRAMA balance = (a – b) + (c – d)
- f. A negative (-) balance in the memorandum account reflects a utility over collection to be refunded, while a positive balance reflects a utility under collection to be recovered in rates.
- g. The Company will record the accumulated VCMRRAMA balance monthly, by adding its entry in section e above to the prior accumulated monthly balance.
- h. Interest shall accrue on a monthly basis by applying a rate equal to one-twelfth of the 3-month non-financial Commercial Paper, as reported in the Federal Reserve Statistical Release, to the average of the beginning-of-month and the end-of-month balances.
- i. Before seeking recovery of the VCMRRAMA balance, the balance shall be reduced by an amount equal to a 20-basis point reduction in the most recently adopted return on equity.

4. EFFECTIVE DATE: The VCMRRAMA shall go into effect on the effective date of the Advice Letter activating voluntary conservation or mandatory rationing.

5. TERMINATION DATE: California-American Water Company will terminate this memorandum account when all implementation costs and penalties have been incurred and recorded or upon removal of penalty rates by the City of Sacramento, Placer County Water Agency and/or other relevant water agency.

6. DISPOSITION: Disposition of amounts recorded in the VCMRIMA will be determined in a regulatory proceeding, as authorized by the Commission, or through a Tier 3 Advice Letter Filing.

BA. Temporary Interest Rate Balancing Account

(C)

1. PURPOSE:

The purpose of the Temporary Interest Rate Balancing Account is to record any difference between the forecast incremental cost of debt included in the cost of capital. Additionally, effective November 20, 2009 under D. 09-11-019, California American Water is authorized to record, on a monthly basis, the \$88,958 difference between the forecast interest rate and the actual interest rate on \$35,000,000 of debt issued on November 26, 2008.

2. APPLICABILITY:

All districts served by California American Water.

3. ACCOUNTING PROCEDURE:

California American Water was granted a balancing account in Decision (D.) 09-05-019. The following entries shall be recorded to the balancing account:

a. This balancing account shall record the difference in interest expense between the actual interest cost for long-term debt for debt issued after May 7, 2009, and the interest cost included in the adopted cost of capital for debt issues in 2009 or later subject to a standard reasonableness review. In accordance with D. 09-11-019 and effective November 20, 2009, the balancing account shall also record \$88,958 per month to represent the difference between the forecast interest rate and the actual interest rate on \$35,000,000 of debt issued on November 26, 2008.

b. The balancing account shall remain in effect until the next cost of capital proceeding. The monthly recording of the \$88,958 shall terminate upon either the adoption of a new cost of capital for California American Water or any adjustment to the cost of capital pursuant to the Water Cost of Capital Adjustment Mechanism adopted in D. 09-07-051.

c. A debit entry is equal to the amount overstated between the actual interest cost and the interest cost included in the adopted cost of capital.

d. A credit entry is equal to the amount understated between the actual interest cost and the interest cost included in the adopted cost of capital.

e. The temporary interest rate balancing account will remain in effect until reviewed in the next cost of capital proceeding.

Schedule No. CA-FEES  
California American Water  
LATE PAYMENT FEES, RECONNECTION FEES, AND CONNECTION FEES

APPLICABILITY

Applicable to all service.

TERRITORY

All territories served by California American Water Company

RATES

Late Payment Fee: A late charge of 1.5% on unpaid balance will be assessed. Customers will be notified on the monthly issued bill that the 1.5% late fee will be applied to any account that is not paid before the past due date shown on the bill. The fee shall be applied at the time a late payment notice is issued. If the customer pays the balance on the date the late payment notice is mailed, then that assessed fee will be forgiven. The fee shall be assessed on all open balances regardless of whether it is an initial or subsequent bill when a total balance has not been paid or there should have been a shut off for non-payment. The fee shall be compounded on all balances that are past due, unless they are under payment agreement. All bills shall be subject to the PUC reimbursement fee as set forth in Schedule No. UF.

Reconnection Fee: Where service has been discontinued for violation of these rules or for nonpayment of bills, the utility may charge \$10.00 for reconnection of service during regular working hours or \$175.00 for reconnection of service at other than regular working hours when the customer has requested that the reconnection be made at other than regular working hours. If payment is received after 3:00 PM, service will not be restored until the next business day. All bills shall be subject to the PUC reimbursement fee as set forth in Schedule No. UF.

Connection Fee for each Service Connection:

For 5/8 x 3/4 – inch meter	\$2,000.00
For 3/4 – inch meter	3,000.00
For 1– inch meter	5,000.00
For 1 1/2 – inch meter	10,000.00
For 2 – inch meter	16,000.00

Connections larger than 2" will be billed at actual costs of construction.

Connection fees are payable in addition to and do not limit any charges for extensions of mains that may be applicable under Rule 15, Main Extensions. Connection fees are also in addition to any special facilities fees that may be applicable in any particular area. These fees are not subject to the Public Utility Commission Reimbursement Fee surcharge in schedule UF. These fees shall be used only for the installation of new infrastructure within all services areas, with the exception of Placer County in the Sacramento District. These fees shall be recorded as a contribution-in-aid-of-construction.

C. Late Payment Charge.

A late payment charge of 1.5% may be applied to the total unpaid balance of a domestic or nondomestic Customer Account if the customer's payment is not received before the past due date shown on the bill. Customers will be notified on the monthly issued bill that such a late payment fee will be applied to any account that is not paid before the past due date.

The fee shall be applied at the time a late payment notice is issued. If the customer pays the balance on the date the late payment notice is mailed, then that assessed fee will be forgiven. The fee shall be assessed on all open balances regardless of whether it is an initial or subsequent bill when a total balance has not been paid or there should have been a shut off for non-payment. The fee shall be compounded on all balances that are past due, unless the customer is under a payment agreement or over 180 days old on wastewater customers. CAW and ORA agree that there should be 15% reduction factor on late payments as a result of the implementation of the fee.

Rule No.11 (continued)  
DISCONTINUANCE AND RESTORATION OF SERVICE

2. For Noncompliance with Rules

The utility may discontinue service to any customer for violation of these rules after it has given the customer at least five days written notice of such intention. Where safety of water supply is endangered, service may be discontinued immediately without notice.

3. For Waste of Water

- a. Where negligent or wasteful use of water exists on a customer's premises, the utility may discontinue the service if such practices are not remedied within five days after it has given the customer written notice to such effect.
- b. In order to protect itself against serious and unnecessary waste or misuse of water, the utility may meter any flat rate service and apply the regularly established meter rates where the customer continues to misuse or waste water beyond five days after the utility has given the customer written notice to remedy such practices.

4. For Unsafe Apparatus or Where Service is Detrimental or Damaging to the Utility or its Customers.

If an unsafe or hazardous condition is found to exist on the customer's premises, or if the use of water thereon by apparatus, appliances, equipment or otherwise is found to be detrimental or damaging to the utility or its customers, the service may be shut off without notice. The utility will notify the customer immediately of the reasons for the discontinuance and the corrective action to be taken by the customer before service can be restored.

5. For Fraudulent Use of Service

When the utility has discovered that a customer has obtained service by fraudulent means, or has diverted the water service for unauthorized use, the service to that customer may be discontinued without notice. The utility will not restore service to such customer until that customer has complied with all filed rules and reasonable requirements of the utility and the utility has been reimbursed for the full amount of the service rendered and the actual cost to the utility incurred by reason of the fraudulent use.

C. Restoration of Service

1. Reconnection Charge

Where service has been discontinued for violation of these rules or for nonpayment of bills, the utility may charge \$10.00 for reconnection of service during regular working hours or \$175 for reconnection of service at other than regular working hours when the customer has requested that the reconnection be made at other than regular working hours.

C. Extensions to Serve Subdivisions, Tracts, Housing Projects, Industrial Developments, Commercial Buildings, or Shopping Centers

1. Advances (continued)

- g. Upon expiration of Special Condition General Item #6 for General Metered Service, a special facility fee for water supply will be contributed in lieu of any domestic water supply requirement covered under Section C. 1.b in the Monterey District in all areas that are to be served water produced by the proposed Monterey Peninsula Water Supply Project ("MPWSP"). This includes all areas in the Monterey County District except those in the Toro, Garrapata, Ambler Park, Ralph Lane and Chualar; new connections in Sand City, new customers in the Pebble Beach area who have purchased water rights through the Pebble Beach Company, MPWMD Public Allocation water, and properties with existing MPWMD documented on-site water credits.
- h. The special facility fee shall be based on the cost of the additional facilities at the MPWSP necessary to serve new customers divided by the AF of additional capacity yield of the new facilities. The fee is agreed to be established at \$24,000 per acre foot of annual water use. The fee can be charged in increments of less than an acre foot depending on the projected annual needs.
- i. The special facility fee shall be recorded as a contribution-in-aid- of- construction and as such will offset the cost of the new facilities necessary to serve these new customers.

RATES

Detailed rates to be provided as part of the proposed decision for each district, but in general the total flow of all meters should be used to find the closest flow of a single larger meter. And when deciding between two meter flows, use the lower flow meter, which would result in a lower charge to the customer. For example, consider that a 1.5" inch meter flows 100 gpm. Therefore two, 1.5" meters flow 200 gpm. Given that total flow, the nearest total equivalent flow is either a 2" meter (160 gpm) or a 3" meter (450 gpm). The charge should be rounded down to the customer benefit.
