ADVICE LETTER NO. 1282

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits for filing the following tariff sheets applicable to its Ventura County District which are attached hereto:

<u>C.P.U.C. Sheet No.</u>	<u>Title of Sheet</u>	<u>Canceling Sheet No.</u>
9510-W	Schedule No. VN-1 Ventura County District Tariff Area GENERAL METERED SERVICE	9324-W
9511-W	Schedule No. VN-9MC (Continued) Ventura County District Tariff Area METERED CONSTRUCTION SERVICE	9548-W
9512-W	TABLE OF CONTENTS (Continued) (Page 3)	9508-W
9513-W	TABLE OF CONTENTS (Continued) (Page 1)	9509-W

Purpose:

California American Water requests authority pursuant to General Order (GO) 96-B, Water Industry Rules, Section 7.3.1, and Section 454 of the Public Utilities Code to offset purchased water expenses it incurs from the Calleguas Municipal Water District. The Calleguas Municipal Water District increased its rates to California American Water effective January 1, 2020. California American Water requests that the full increase be offset in base rates to account for the annual change in purchased water costs.

Background:

California American Water serves approximately 21,150 customers in Portions of Thousand Oaks, Newbury Park, an area adjacent to Camarillo, and vicinity, Ventura County.

California American Water is requesting an offset due to the Calleguas Municipal Water District increasing water rates from \$1,375 to \$1,472 for Tier -1 rates and \$1,461 to \$1,559 for Tier -2 Rates in 2020. Additionally, the "Capacity Reservation Charge" and "Readiness-to-Serve" charge decreased in 2020. The Calleguas Municipal Water District updates resulted in an annual increase in purchased water expense to California American Water of \$1,396,972 plus a

corresponding increase of \$7,182 for uncollectibles for a total expense increase of \$1,404,154. This increase is directly related to water consumption and thus should be applied to the quantity rate. The resulting purchased water surcharge is an increase of \$0.2080, from \$0.2712 per hundred cubic feet (ccf) to \$0.4792, or \$0.0641 per 100 gallons (cgl).

The offset requested represents an increase of \$1,404,154 or 3.46% over the latest revenue requirement. In accordance with Section 3.2 of Water Industry Rules in GO 96-B for processing expense offset rate increases, California American Water shall include a bill text message providing the amount of the increase, expressed in dollars and percent, in the first bill that includes the increased surcharge.

Request:

California American Water Company requests authorization to implement a purchased water surcharge totaling \$0.4792 per ccf or \$0.0641 per cgl.

Tier Designation:

This advice letter is submitted with a Tier 1 designation.

Effective Date:

California American Water requests an effective date of February 21, 2020.

3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.
7. A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

Provided, however, that the R.F.P.S. rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system.
