ADVICE LETTER NO. 1418

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Pursuant to General Order 96-B and Decision (“D.”) 21-11-018, California-American Water Company (“California American Water”) (U210W) submits for filing and review this advice letter including the tariff sheets applicable to its Central Division which attached hereto.

**Purpose:**

The purpose of this advice letter is to request Commission approval of an increase in rates of \$391,589 or 0.48% to offset increased purchased power costs in California American Water’s Central Division.

**Background:**

In accordance with Section 7.3.1 of the Water Industry Rules under General Order (GO) 96-B and Section 454 of the Public Utilities Code, California American Water is seeking authority to offset purchased power expenses in its Central Division.

The composite purchased power cost of \$0.2015 per kilowatt-hour (kwh) was established for the Central Division in D.21-11-018. Actual composite cost per kwh for the 12-month period ending June 30, 2023 was \$0.2330 per kwh. The increase to power rates results in a \$389,595 annual increase to purchased power expense to California American Water, plus a corresponding increase of \$1,994 in uncollectible expense for a total increase of \$391,589. The increase is directly related to water consumption and thus should be applied to the quantity rate. This results in a final purchased power surcharge of \$0.1008 per ccf (\$0.0135 per 100 gallons) for the Central Division.

**Request:**

California American Water requests authorization to implement a purchased power surcharge totaling \$0.1008 per ccf (\$0.0135 per 100 gallons) for Central Division.

**Tier Designation:**

This advice letter is submitted with a Tier 1 designation.

**Effective Date:**

California American Water requests an effective date of August 27, 2023.

**Notice & Service list:**

This is a Tier 1 advice letter that does not require customer notification, as provided in Water Industry Rule 7.3.1 of General Order 96-B. California American Water will notify its customers of this production expense by placing a message on the customer's water bills that are generated after the increase goes into effect. In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically to competing and adjacent utilities and other utilities or interested parties having requested such notification. ***Please note that this advice letter will only be distributed electronically.***

**Protests and Responses:**

Anyone may respond to or protest this advice letter. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A **protest** objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds<sup>1</sup> are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.
